

# LABEL PRODUCTION MACHINES

## LABEL MACHINES CONFIGURABLE WITH:

- Hot stamping
- Silk Screen Printing
- Flat bed die cutting
- Laser die cutting
- Varnishing

## LASER DIE CUTTING MACHINES FOR SELF ADHESIVE LABELS SLITTERS MACHINES FOR OTHER APPLICATIONS

Since 1970 **CARTES** has been producing labels machines.

Our facilities are located in Moglia in the province of Mantova and they extend on a 6.000 sqm area, where a skilled and professional team works.

**CARTES** has affirmed its success in 80 Countries where more than 4.000 machines are installed and feature for their quality, innovation, mechanical strength and high precision.

We constantly aim for innovative technical solutions for the label reel market.

**CARTES** offers the widest range of labels machines with **hot stamping**, **silk screen printing**, **flat bed die cutting**, **embossing**, **varnishing** and with the exclusive **LASER** for **die cutting** and **converting**.

**CARTES** first developed and commercialized the **LASER** technology applied to self-adhesive label die-cutting.

Today, 12 years later, there are more than 200 Cartes Laser die cutting machines installed in 34 countries around the world confirming that the **CARTES LASER** technology still represents the most successful solution worldwide.

The combination of **CARTES LASER TECHNOLOGY** with the stamping units of **CARTES HS SERIES** has given birth to the exclusive **CARTES HS COMBILASER SERIES**.

Thus, the **LASER** die cutting unit is combined with **hot stamping**, **silk screen printing**, **engraving** and **varnishing units**, in a all-in-one customisable machine.

These machines are very appreciated by label producers as they can create a huge variety of luxurious labels, complete with background, finishing decorations and perfect die-cutting in a single, high speed process.
